### **Location**

The conference takes place in the [Castle of L'Aquila](#). The massive 16th-century [Spanish castle](#) crowns the city's highest point and is surrounded by the large Parco del Castello (click for [bird's eye view of the Castle](#) by Google maps). Maps indicating the way from your hotel to the Castle can be found on the [accommodation-site](#) (last column Google maps, way to castle). Information about the local weather can be found at the [CETEMPS-website](#) (University of L'Aquila).

The lecture hall is equipped with overhead projector and laptop (Windows) with beamer.

### **Excursion**

During the conference excursion, two small, lovely villages in the [National Park of Gran Sasso](#) are visited - [Castelvecchio Calvisio](#) and [Santo Stefano di Sessanio](#). The origin of both villages goes back to the Roman Empire. They rose close to the commercial routes between Rome and the Adriatic coast and reached their time of prosperity in the Middle Ages. The appearance at that time could be largely conserved up today.

The busses of the excursion start at 1:45 p.m. at the [Fontana Luminosa](#) near the Castle. The following [maps](#) (Google maps) shows the way from the entrance of the Castle to [Fontana Luminosa](#). After the excursion the buses will stop along a loop close to your hotel and will repeat the loop after 45 minutes to collect us and take us to [Casale Signorini](#), the location of the conference dinner. You will find the details of the bus route in your conference bag.

### **Posters**

All posters can be mounted during the whole conference. The posters are assigned to three different sessions (no flash talks) - on Monday, Tuesday or Wednesday, respectively. A list of all posters can be downloaded [here](#) (pdf, 0.7MB).

A preferable poster size is A0 in upright format, i.e. height x width: 1.19m x 0.84m (47 in x 33 in). In any case, the poster width should not exceed 1 m. Pinning material will be provided.

Authors of contributions which were accepted as posters of the conference are invited to send full papers before September 17<sup>th</sup> (prolonged). Please follow the instructions given under <http://diffusion.uni-leipzig.de/pdf/layout-full-paper-contribution.doc> and send your paper to [tomas@uni-leipzig.de](mailto:tomas@uni-leipzig.de). The publication in the special issue of the Online-Journal "[Diffusion Fundamentals](#)" depends on the positive response of the referees.
